

CONVAL INDUSTRIES, INC.

P.O. BOX 428 125 MAIN STREET SPRINGFIELD, MASS. 01101
One-Third Size Model Mustang Jr. and Thunderbird Jr. Fun Cars

PowerCar
DIVISION

SPECIFICATIONS

Conval Industries has created these midget cars as faithful one-third size reproductions styled after the Ford Motor Company versions. The tubular steel frames are bright zinc plated and the metal parts are provided with a rust inhibitive treatment for maximum product life. The durable non-rusting fiberglass bodies and bumpers are manufactured to the same rigid quality specifications required in the aircraft industry. The lustrous high-gloss exterior finish is achieved through the use of automotive acrylic enamel applied under our rigid production specifications. Fashion styled interiors include foam seat cushions covered with reinforced vinyl leatherette, textured side paneling, and authentically simulated instrument panels. The windshield is constructed from safe, flexible transparent plastic. Actual automotive style tread 4.10 x 3.50 x 5 white wall 25 lb. super cushion pneumatic tires are supplied as standard equipment with realistically styled hub caps. Absolute power traction is achieved through use of silent and safe v-belt drive on both rear wheels.
